[About](#)[Users](#) 1[Reviews](#)

The exhibition, organized by Nartwork association, challenges the artists to break down the walls of fears, illusions, superficiality to arrive at the essence of reality, to appreciate and appreciate it as it is here and now. Nartwork Association is born from a passion for the art of a team of young Neapolitans, whose purpose is to organize cultural events and activities aimed at the knowledge and dissemination of art in all its forms and expressions, in the promotion of the artistic work of modern and contemporary artists, emerging young people and the historical-artistic heritage. Naples is our native city but we are trying to become international, hosting foreign artists in our exhibitions and organizing exhibitions abroad.
